Preservation

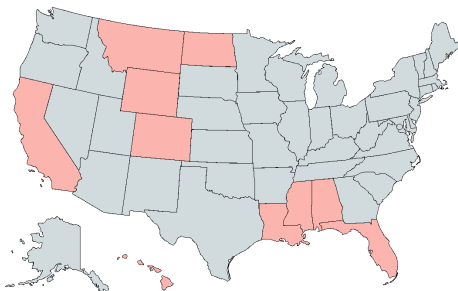

Public
Outreach

Our certified woman-owned (WOSB) company was founded on the principal that communication and close coordination within the design team leads to more successful and enjoyable projects. Throughout the design process, we understand the importance of responsiveness and clarity in communication. Additionally, our designers look for opportunities to improve the sustainability of every project we do, from economical design decisions to opportunities for green infrastructure. Marais has a dedicated staff that includes four Professional Engineers, four Project Designers, and an outreach specialist. Our staff are licensed to perform engineering in LA, MS, AL, FL, CA, HI, CO, MT, WY, and ND.

ABOUT US

- **Founded** October 2022
- **Headquarters** 2018 Jena St., New Orleans
- **Point of Contact (POC)** Jennifer Snape, PE
- **POC Phone** 504.350.2644
- **POC Email** jenny@maraisconsultants.com
- **Website** www.maraisconsultants.com
- **Certifications** WOSB, WBE, Hudson, DBE
- **License** Engineering Firm (LA) EF.0007431
- **Unique Entity ID** QW35QWV1KBE3
- **CAGE/NCAGE** 9EBN5

FEDERAL CONTRACTS

- **24C0041 – Design-Build Road Repairs**
Prime - Potawatomi DO
Fort Polk (Johnson) Base, LA
- **502-24-102 - Replace Elevators in Building 7, 9, and 45**
Prime – Spees Design Build
Pineville VA Health Care Center, LA
- **586-22-103 - Repair Chilled Water and Steam Distribution Systems**
Prime – DavEnergy Solutions
Jackson VA Health Care Center, MS

WHAT'S IN A NAME?

The choice of the word *marais*, meaning “marsh” in French, pays tribute to the land that serves as the foundation for New Orleans, where the marshes were drained in order to create our city. Today, the coastal marshes present a case study in the benefits of working alongside natural systems for sustainable solutions to current and future challenges. They are an essential feature of our landscape providing wildlife habitat and protection from damaging storm surges. We strive to provide our clients with the same multi-dimensional utility through innovative structural engineering, site development, and nature-based design.

NAICS 541330

321

Projects Completed

Since opening in October of 2022, we have completed more than 321 different projects throughout the United States.

4

Federal Contracts

Marais is currently providing civil and structural design as the subconsultant on 4 infrastructure projects for the Department of Defense.

71

Years of Experience

Our team has 71 years of combined experience performing civil and structural engineering, cost estimating, and construction admin.

2.9

Client Cost Savings

Through efficient design practices, strategic reuse, and value engineering, Marais has saved our clients an estimated \$2.9 million dollars.
